Aesculap Osteosynthesis Hire Kits

The Aesculap Osteosynthesis Set Systems allows a systematic set up and supplement of implants and instruments for bone surgery in small animals. DLC Australia has two kits now available for hire.

Basic Set 1 – with complete osteosynthesis instruments for standard osteosynthesis in small sized dogs and cats.

LP900 Basic set no. 1

Set contains implants and instruments for screws with 2.7mm thread diameter.

Supplementary Set 1 & 2 – with complete Osteosynthesis instruments and implants for standard osteosynthesis for medium – large sized dogs.

**LP910 Supplementary Set no. 1

Set contains instruments for screws with 3.5 – 4.5mm thread diameter and for the belonging plates.

**Supplementary sets LP910 & LP911 are hired as one complete kit.

Hire Kit Charges

Hire Fee: \$92.95+GST
Freight charges to be paid by client

The items used will be charged to your account upon return. A list of items included in this kit is enclosed with prices, please mark the implants used and return the sheet with the kit.

(DLC Australia is to be contacted when the kit is ready for collection)

Order forms and Information is available from
DLC Australia on what the kit contains.

Veterinary Instrument & Equipment Specialists

Aesculap Orthopaedic Hire Kits

Conditions of Hire

- Maximum hire period for Aesculap orthopaedic kits at any one time is five (5) working days. Kits returned after this time will incur another hire charge.
- Any instruments or storage box damaged or broken while out on hire will be charges to your account (charges for individual items can be found on the stock list accompanying the hire kits).
- The cordless drill provided **must not** be autoclaved (the drill shroud, extension and chuck are autoclaveable).
- **All kits are to be washed and cleaned prior to being returned to D.L.C Australia Pty Ltd. Any kit not found to have been clean upon return will incur a \$65.00 +GST cleaning fee which will be charged to your account.**
- Special transport boxes and packaging have been provided to eliminate damage in transit and ensure hire kits arrive in good order. All kits being returned **must** be returned in good order in the packaging provided to avoid further charges.
- All implants used must be indicated on the accompanying stock sheet, any items that are missing from the stock and are not indicated on the stock list will be charged to your account at the price indicated.
- **Important: As the hire kits are not sterilised prior to despatch from D.L.C Australia these will need to be sterilised before use.**
- Cut off times for hiring kits is **3.45pm** to allow sufficient time for paperwork and despatch to be arranged.
- A return consignment note has been included for your convenience. Please phone and ask for customer service when the kit is ready for return and a pick up will be arranged.

I hereby understand and accept all the above conditions whilst hiring the orthopaedic kits.
